# Seamless Fittings

We are one of the foremost firms well-known as supplier and manufacturer of [Seamless Pipe](#), in Ahmedabad, India.

Seamless Pipe is formed by piercing a solid, near-molten, steel rod, called a billet, with a mandrel to produce a pipe that has no seams or joints.

These seamless fittings discover their applications in synthetic, electronic, vehicle and nourishment ventures.

These are mostly utilized in steel plants, oil, refineries, petrochemicals, bond and development ventures for fitting funnels and to join three channels of same measurements and widths.
